A UNIFIED PROPERTY & TENANT MANAGEMENT PLATFORM

PropCare

Every lot managed. Every rupee collected. Every request resolved — on one platform.

THE PROBLEM

Managing property today is fragmented and manual

For Property Owners

- No time to find, screen, or manage tenants
- Rent collection is manual, delayed, and hard to track
- Coordinating repairs and vendors is a constant hassle

For Tenants

- No easy way to pay rent or raise a complaint
- Slow, unclear response to maintenance requests
- No visibility into usage, history, or resolution status

For Service Providers

- Disorganized demand for housekeeping and repairs
- No structured channel to reach owners or tenants
- Inconsistent, unpredictable workflow and payments

OUR SOLUTION

One company. One platform. Every property handled.

PropCare lets owners register household, commercial, and industrial lots with us. We manage the tenants, collect the rent, and deliver every service the property needs — while the owner is paid on time, every time.

End-to-end management

Tenant sourcing, screening, and day-to-day management handled for the owner.

Reliable rent collection

Rent is collected from tenants and disbursed to owners on a fixed schedule.

On-demand services

Housekeeping, maintenance, painting, repairs, and utilities — all dispatched through us.

A digital front door

One website for tenants and owners to pay, request, track, and communicate.

The PropCare Loop

1. Owner registers a lot
2. Tenant is placed & managed
3. Rent collected via portal
4. Services delivered on request
5. Owner paid their share

SCOPE

We manage every type of lot, under one roof

Household / Residential

Individual homes, apartments, and residential units leased to long-term tenants.

Commercial

Retail shops, offices, and mixed-use spaces leased to businesses and professionals.

Industrial

Warehouses, workshops, and industrial units leased to manufacturing and logistics tenants.

SERVICE CATALOGUE

Beyond rent — a full slate of property services

Housekeeping

Routine cleaning for residential and commercial units.

Maintenance

Scheduled and on-call upkeep of facilities and equipment.

Painting

Interior and exterior painting on tenant or owner request.

Repairs

Plumbing, electrical, and structural repair services.

Electricity

Wiring, fittings, and electrical fault resolution.

Plumbing & Water

Leak fixes, fittings, and water system servicing.

...and any other service demanded by tenants or owners, dispatched through PropCare.

TECHNOLOGY

One website. Everything a tenant or owner needs.

The PropCare portal is the digital front door for every property we manage — built for tenants first, and mirrored for owners.

Pay Rent Online

Secure, scheduled rent payments with instant confirmation.

Submit Complaints

Raise issues directly and track them through to resolution.

Request Services

Book electricity, plumbing, maintenance, and more in a few taps.

Status & History

View rent history, complaint status, and service records anytime.

Usage Statistics

Track electricity and water utilization trends over time.

Secure Records

All payments and requests logged transparently for both sides.

VALUE DELIVERED

A better deal for owners and tenants alike

Property Owners

- Passive income — no day-to-day involvement needed
- Guaranteed, on-time share of rent collected
- Vetted tenants and professionally handled upkeep
- Full visibility into their property's status online

Tenants

- One portal for rent, complaints, and service requests
- Faster turnaround on maintenance and repairs
- Transparent history of payments and requests
- Clear view of their own utility usage and costs

BUSINESS MODEL

How PropCare earns: a simple revenue share

Tenants pay rent through the portal. PropCare retains an agreed management share and disburses the remainder to the owner on a fixed schedule. Service requests (housekeeping, repairs, painting, etc.) are billed separately as an additional revenue stream.

2

Revenue streams:
management share + services

100%

Rent flows through
the PropCare portal

MARKET OPPORTUNITY

A large, underserved market across every property class

Residential Lots

Individual owners and landlords seeking hands-off rental management.

Commercial Spaces

Retail and office landlords needing reliable tenant and facility oversight.

Industrial Units

Warehouse and workshop owners with specialized maintenance needs.

Why now

- Owners increasingly want passive, hands-off rental income
- Tenants expect digital-first service, not phone calls and paperwork
- Unbundled local vendors make services slow and inconsistent to access

WHY PROPCARE

What sets PropCare apart

All-in-one model

Rent management and property services under a single operator — not stitched together.

Digital-first experience

A single portal replaces calls, paperwork, and follow-ups for owners and tenants.

Data-backed operations

Usage, payment, and service data inform faster, better decisions for everyone.

Trust & transparency

Clear rent flow, service status, and history — visible to owner and tenant alike.

ROADMAP

Where PropCare goes from here

1 — 2 — 3 — 4

PHASE 1

Launch & Onboard

Onboard first residential lots, build the tenant portal, and prove the rent-collection loop.

PHASE 2

Expand Services

Add housekeeping, maintenance, and repair partners; scale to commercial spaces.

PHASE 3

Scale Industrial

Extend into industrial units; deepen usage analytics and automated service dispatch.

PHASE 4

New Markets

Expand across cities with a repeatable, portal-led operating model.

Let's simplify property management — together.

PropCare is ready to onboard its first owners, tenants, and service partners.

Thank you
